

FLOOR REJUVENATION SERVICES

For Commercial Buildings and Residential Homes

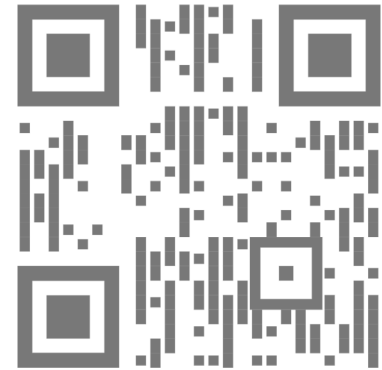

Our company offers the service of a specialist on site team to rejuvenate a wide range of old stained, corroded or tired looking concrete and natural stone floors, utilizing the latest technology in floor rejuvenation and texturing processes and machinery. Tile surfaces are also then sealed for ease of maintenance and surface protection, once the rejuvenation process is complete.

Floor Texture Transformation

From a smooth to a rough texture or from rough to a smooth texture. We can alter a smooth concrete surface to a uniform slip resistant Lava Stone finish, ideal, for around pools or to texture slippery walkways.

Please contact Alex,Avril,Robert or Warren for a quotation to rejuvenate old stained and badly worn terrazzo and natural stone flooring, including sandstone, slate, quartzite, marble, brick and clay tiles. Tel: 011 663 2000,

REJUVENATION OF OLD ORIGINAL FLOORS IN HERITAGE BUILDINGS

Floor rejuvenation of a 1925 historical building, at the PTA University of our terrazzo tiles installed \pm 90 years ago, specified by the specialist heritage architect, Helene Potgieter of HPC Architects

BEFORE Ceramic tile Adhesive ground off to reveal hand made terrazzo beneath.

AFTER Terrazzo tiles restored back to life after 90 \pm years that had been tiled over with ceramic tiles.

See the rejuvenation process of hand made Terrazzo tiles dating back to \pm 1925 that had been tiled over. The ceramic tiles laid on top of the Terrazzo were removed as they were badly worn. The adhesive on top of the original Terrazzo dating back to 1925 was ground off and the \pm 90 year old tiles, were repolished with a six stage polishing process. After polishing, they were sealed for ease of maintenance, and to enhance the colours of the terrazzo pattern. Returning them to their original factory finish \pm 95 years ago!

FLOOR REJUVENATION SERVICES

Of Terrazzo tiles and Insitu Terrazzo floors.

Onderstepoort Veterinarian Clinic

BEFORE: (Badly stained terrazzo after 60 years of use)

AFTER: Same staircase all stains removed after grinding and sealing.

We can rejuvenate textured Terrazzo and smooth polished Terrazzo, back to their original factory finish, see work completed at Onderstepoort Veterinarian Clinic.
